

SurveySwipe Instant Connect

Agile Market Research

SurveySwipe Instant Connect provides access to smartphone respondents to take surveys for your mobile marketing needs. With our growing install base, thousands of surveys already completed and ability to recruit smartphone users worldwide - SurveySwipe platform is just what you need to make faster and better marketing decisions.

- **Agile market research:** Easily reach mobile users with a quick survey, and get answers and closer to a decision in about an hour. It doesn't get any **FASTER** than that.
- **Highly engaged respondents:** SurveySwipe uses several industry first and innovative engagement mechanisms to keep the members engaged. You get better quality responses because we keep the respondents excited about taking surveys on our platform.
- **Reports:** Get an executive powerpoint report, or perform your own analysis by using the raw data files.

Your app functions great and has a great user interface. Everything is easy to use and figure out. I like taking surveys on my phone.
